How was the pace of the group work together, for you?

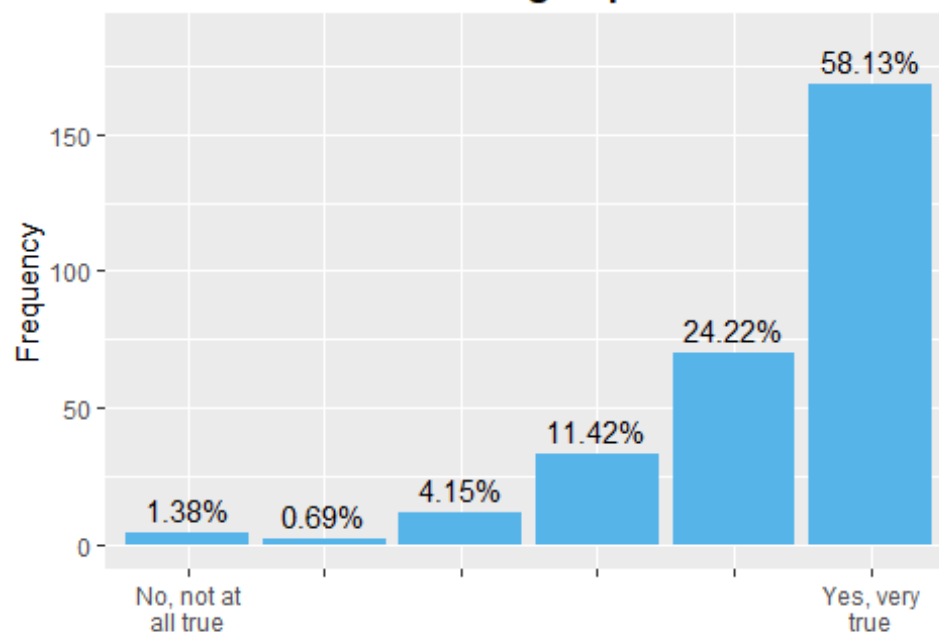

Please rate how true the following statements are about how your group worked together

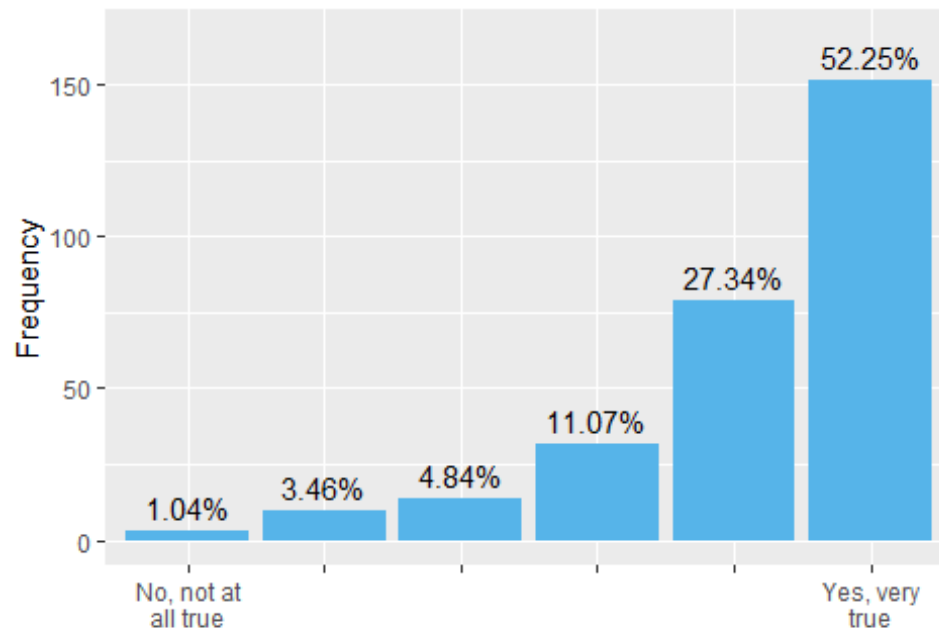

Disagreements in the group were resolved positively for everyone.

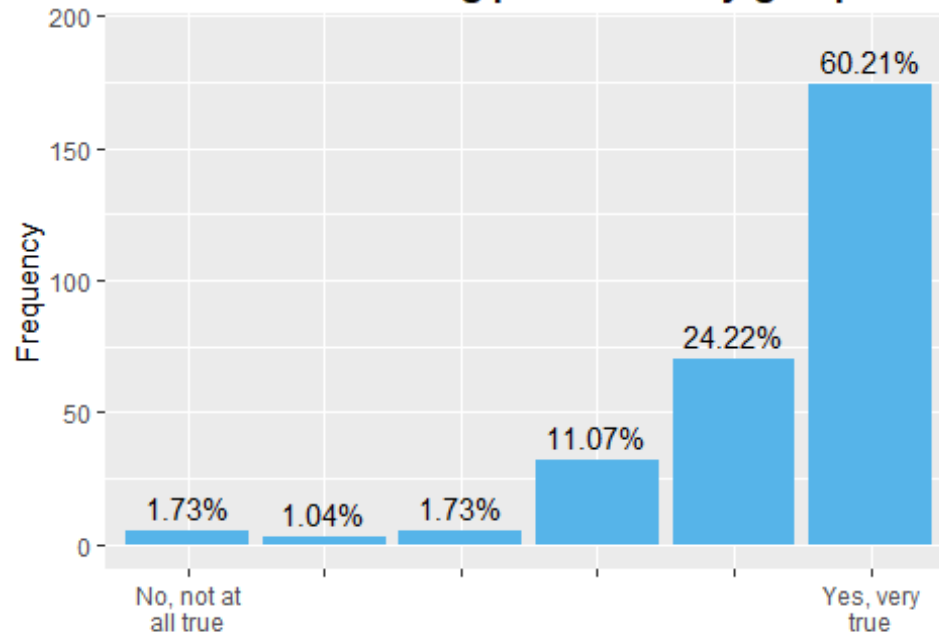

I felt comfortable offering my opinion to the group.

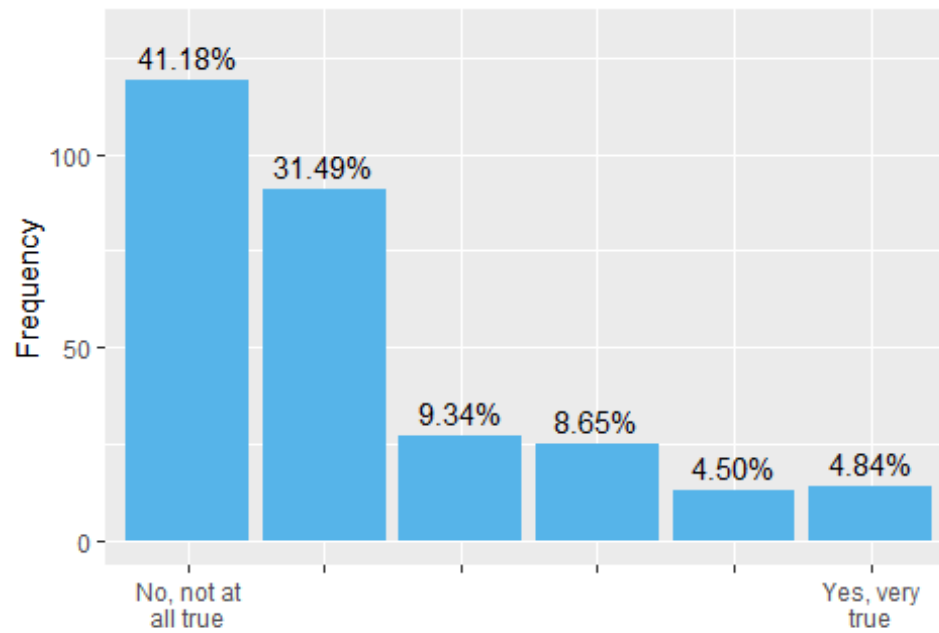

I felt like it was okay to make mistakes in front of my group.

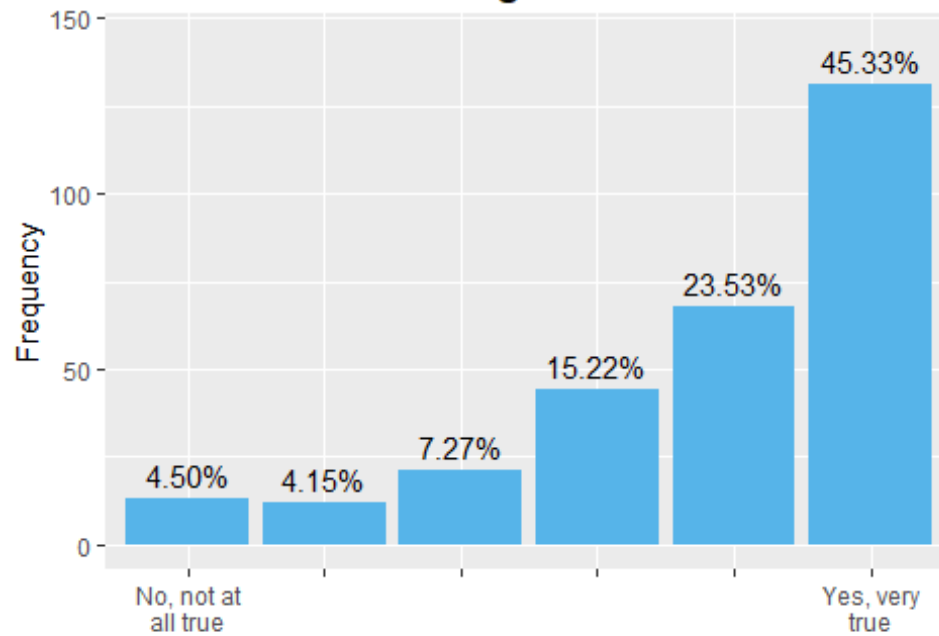

I felt that I was included in the decision-making process in my group.

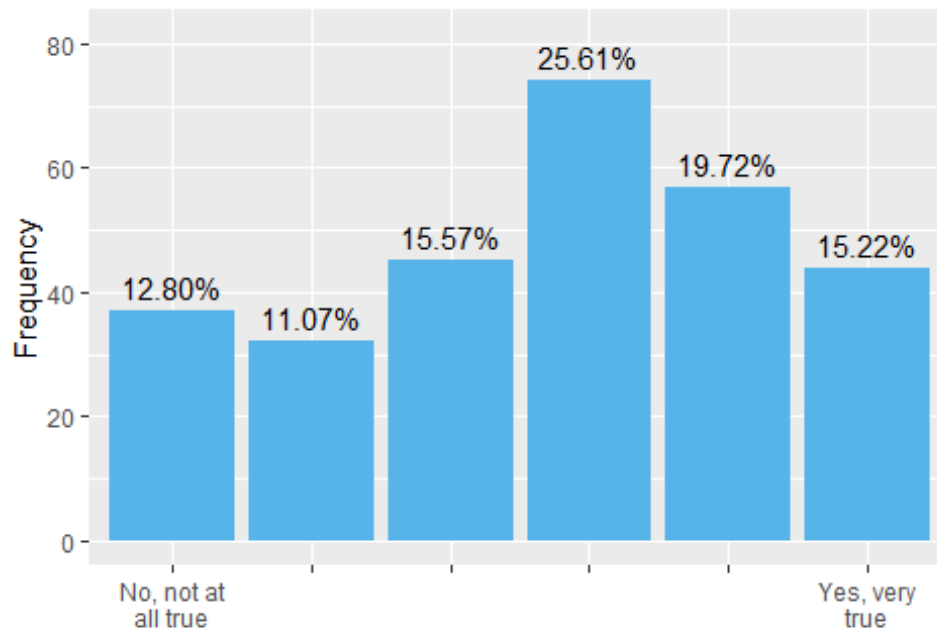

**Too much time was wasted on
unproductive arguments in my group.**

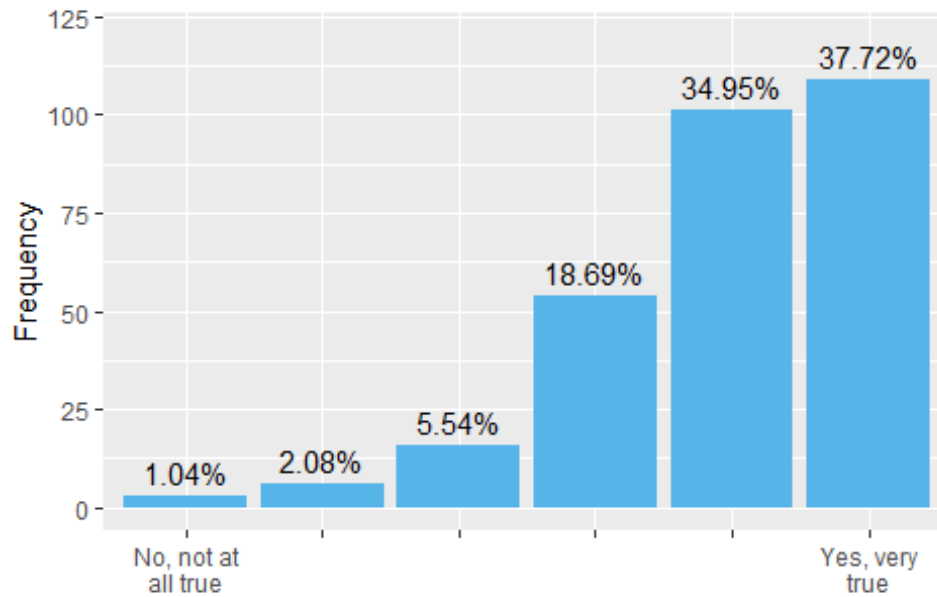

**I would work with this group of people
again.**

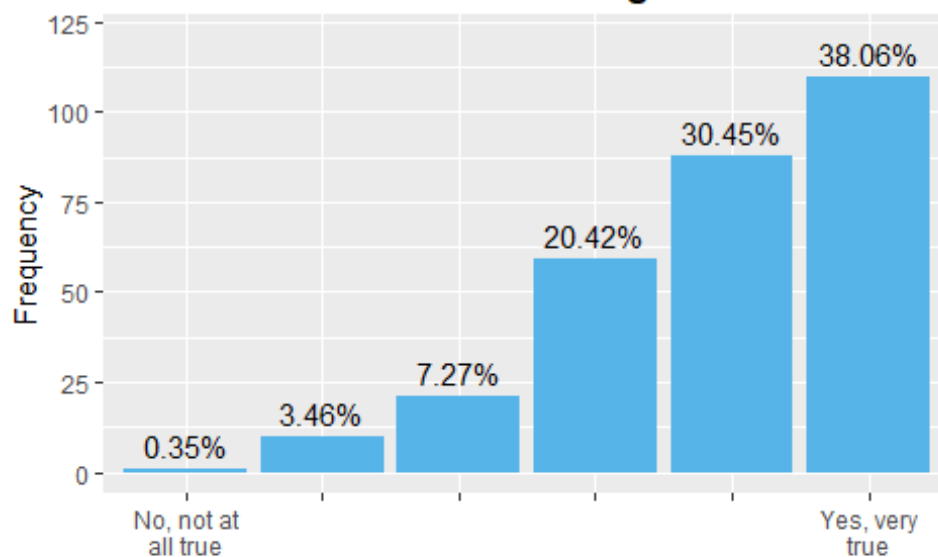

I found it discouraging to learn my individual-test mistakes.

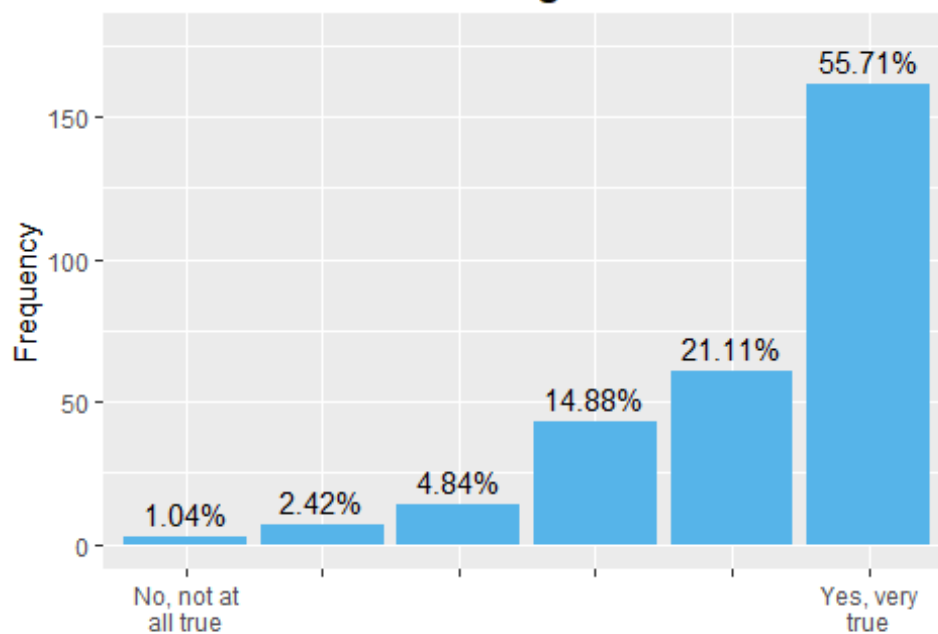

I appreciated learning which questions I had answered correctly on my individual test.

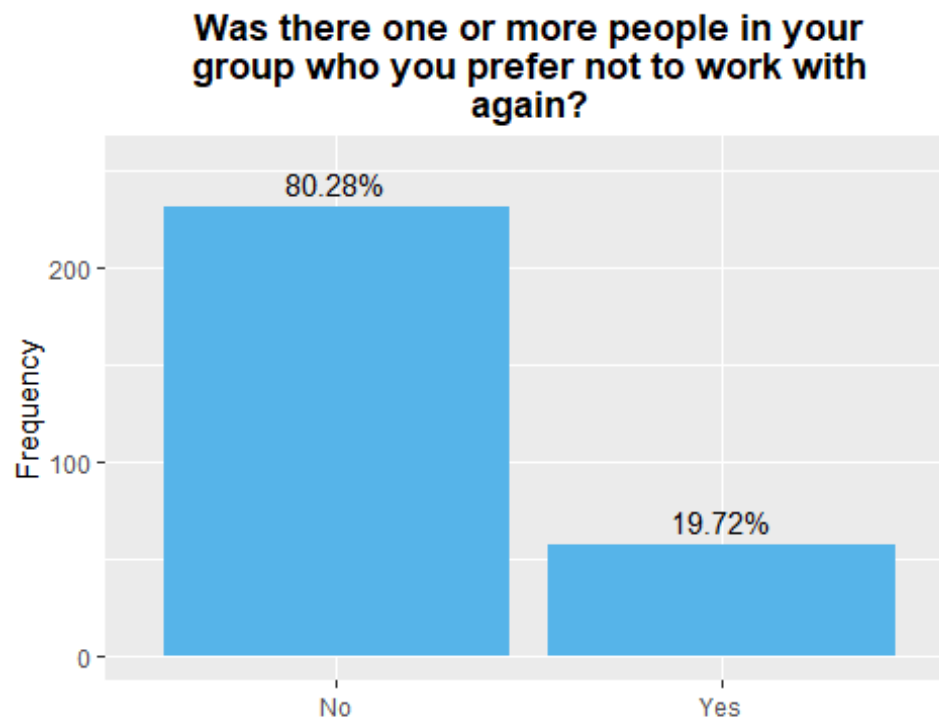

Even when I answered a question on the individual exam correctly, discussing it in the group enhanced my understanding.

I expect the group exam will improve my overall grade.

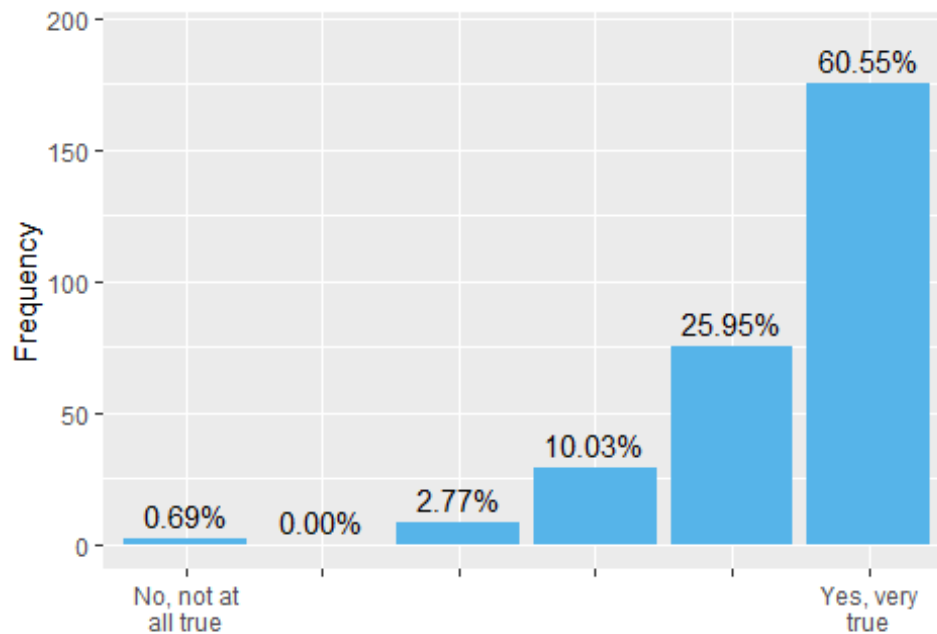

Was there one or more people in your group who you prefer not to work with again?

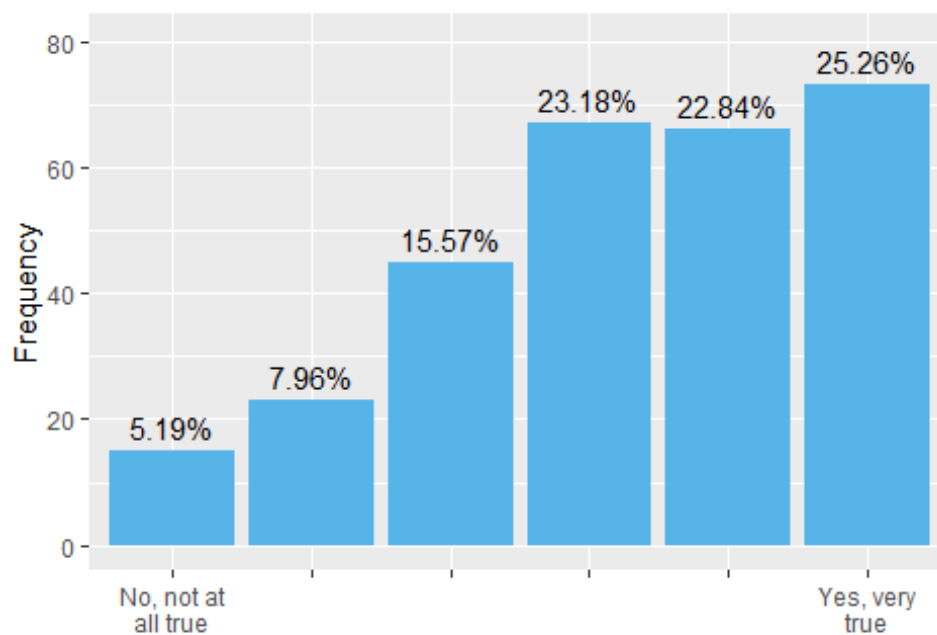

During this group exam, I felt comfortable sharing my answer with the group...

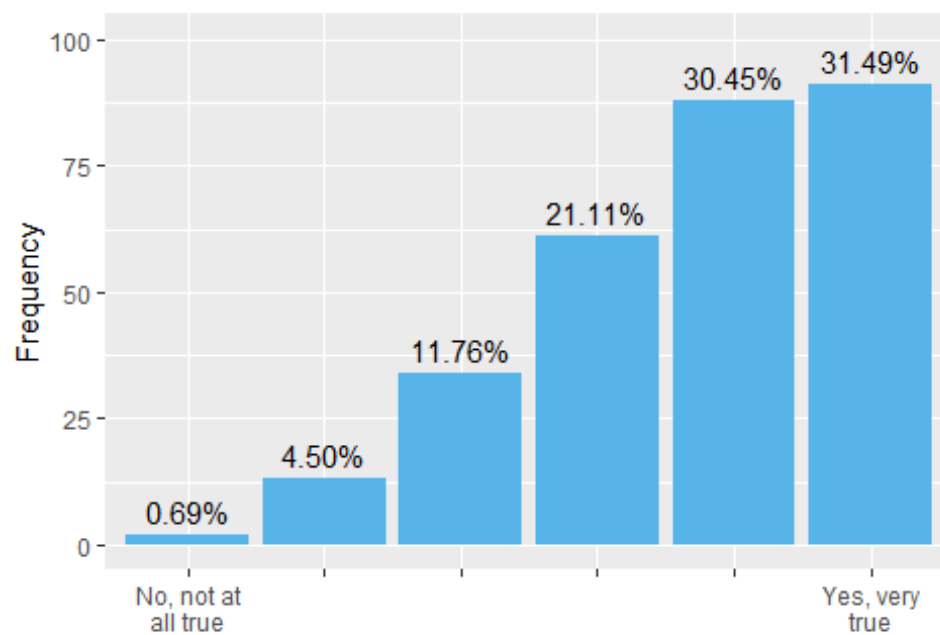

...when I thought my answer was correct.

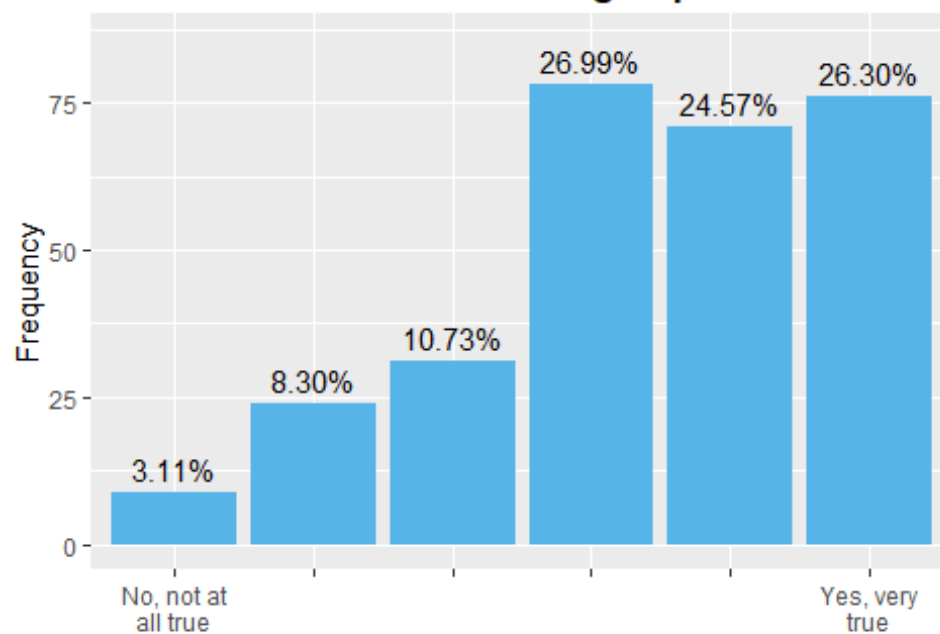

...when I thought my answer was incorrect.

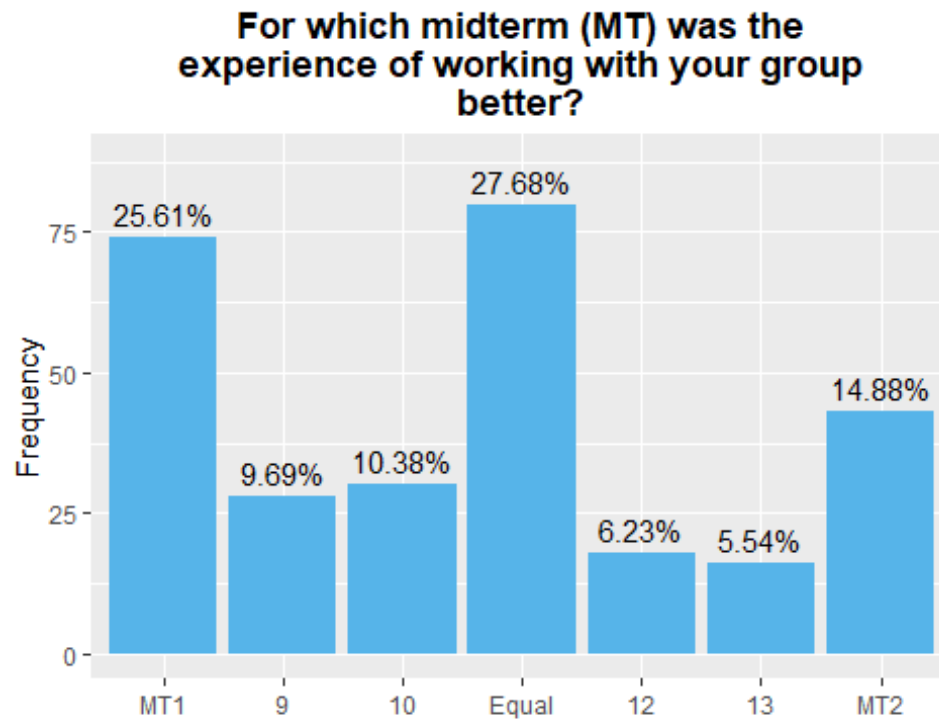

**...when I was uncertain if my answer
was correct or incorrect.**

**...when my answer was different than
the rest of the group.**
